Lens 4 worksheet: stakeholder and incentive map

Stochastic Parrots and Beyond · Lens 4 worksheet

Question: Which incentives preserve an unsafe or inequitable practice?

Task (15 minutes, groups of three or four): Choose a system from a research-use description in your group. Use Llama 2 as in the case only if no description fits. For each stakeholder, note what it gains, what it pays or risks, and which leverage it has. Circle one incentive that keeps an unsafe or inequitable practice in place. See the Lens 4 page.

System: _____

Stakeholder	Gains	Pays or risks	Leverage
Model provider			
Cloud and hardware			
Data creators			
Data workers			
University			
Researchers			
Research participants			
Regulators			
The public			
Other:			

Governance change	Notes
The incentive that keeps the practice in place	
The change, and who must act	
At which level, and by when	

Transfer to the shared fields

Carry your main finding over to the twelve shared fields. You use them again in the research-use clinic.

Field	Notes
Research use	
System or vendor	
Evidence source	
Lifecycle stage	
People affected	
Risk or benefit	
Severity and uncertainty	
Existing mitigation	
Possible alternative	
Disclosure requirement	
Institutional owner	
Next action
